

SOFT ENERGY EXPO—79

WHAT'S NEW UNDER THE SUN

A major exploration of alternative energy resources, emphasizing "do-it-yourself" low-scale solar technology and energy conservation projects adaptable to homes and office buildings, community-wide conservation projects and alternative energy systems. A workshop series for the layman will be held throughout Sun Year at The Newark Museum. Call (201) 733-6600 for information or group reservations.

THE NEWARK MUSEUM
